

FIG 1

FIG 2

A schematic diagram of a medical device, likely a catheter or probe, with a U-shaped main body and a control handle. The handle includes a trigger (24) and a control knob (25) with a textured surface (31). A cable (23) connects the handle to the main body. The main body has a central channel (18) and side channels (19, 12). Arrows indicate flow directions: downward in the left side channel (19) and upward in the right side channel (12). The device is labeled with various reference numerals: 10, 12, 18, 19, 22, 23, 24, 25a, 25b, 25, 31.
